# BUSH'S WEAPON OF MASS DISTRACTION: WAR WITH IRAQ

**Is the Bush administration pushing this war because...**

**War will take our minds off our failing economy, our broken education system, the environmental meltdown, the healthcare emergency, the raids on social security, the corporate scandals, the new \$157 billion deficit?**

**And We won't notice the loss of our civil liberties.**

## THEY TELL US

- 1. Iraq has weapons of mass destruction and may be developing nuclear weapons.**
- 2. We have nothing against the Iraqi people. We only want regime change.**
- 3. War with Iraq has nothing to do with politics.**
- 4. War with Iraq has nothing to do with oil.**

## THE FACTS

- 1. Past and present Chief U.N. Weapons Inspectors, Scott Ritter and Hans Blix, say "there is no evidence that Hussein has weapons of mass destruction or is trying to build them."**
- 2. Bombing Baghdad, a city of 5 million, will not accomplish regime change. It will kill thousands of innocent people none of whom is likely to be Saddam Hussein.**
- 3. Then why is Bush rushing Congress to declare war before the election?**
- 4. Vice President Cheney's Oil Co., Halliburton, secretly rebuilt the oil fields in Iraq after we bombed them in '91. They and five other American companies have been buying Iraqi oil cheap ever since, making Iraq America's 2nd largest Middle Eastern oil supplier.\* That war was supposed to have nothing to do with American oil interests either.**

**We, the people of the United States, are not willing to send our sons and daughters, brothers and sisters, husbands and wives to die for politics or oil.**

**A vote for war is a vote against the American people.**

**Call Congress today: 202-224-3121.**

**Tell your Congressman and Senators to vote NO WAR WITH IRAQ.**

**This ad was paid for by the people who signed it.**
